THE NEW AND IMPROVED CPSCREEN DISC

Experience an 80% Reduction in Wrapping!

HOW IT WORKS:

Engineered for optimal performance and compatibility, the new CPScreen Disc integrates seamlessly with existing CP Screens, requiring minimal component changes. Designed for both full and partial disc row replacements, it offers effortless interchangeability with traditional discs.

KEY ENHANCEMENTS INCLUDE:

- Recessed hardware to reduce material wrapping
- Interlaced disc lobes for improved agitation and further wrap reduction
- Thicker, reinforced lobes for extended wear life

This upgraded design increases material agitation for better separation, minimizes wrapping, reduces maintenance needs, and extends equipment longevity. Upgrade your system for greater efficiency and reliability.

KEY BENEFITS OF THE CPSCREEN DISC:

- ✓ **MINIMAL COMPONENT CHANGES:**
Quick installation with minimal disruption to your operations.
- ✓ **FLEXIBLE UPGRADE OPTIONS:**
Compatible with traditional discs for seamless transitions.
- ✓ **ADVANCED DESIGN FEATURES:**
Reduced wrapping and improved material agitation for optimal performance.

WHY CUSTOMERS CHOOSE THE CPSCREEN:

- ✓ **BOOST PRODUCTIVITY:**
Reduce maintenance time and keep operations running smoothly.
- ✓ **REDUCES OPERATING COSTS:**
Lower maintenance costs and extend the life of your equipment.
- ✓ **ENHANCE EFFICIENCY:**
Faster cleaning means less downtime and more output.

INVEST IN A SCREENING SOLUTION THAT ENHANCES EFFICIENCY AND DURABILITY.
